

VIKRAM SETHI

Software Engineer (ML Platform) | Mumbai, Maharashtra

Phone: +91 98330 55901 | Email: vikram.sethi@exampleemail.com

Total Experience: 6 years

PROFESSIONAL SUMMARY

Platform engineer supporting ML teams. Deep infrastructure skills, lighter on modelling.

TECHNICAL SKILLS

Python, Go, Kubernetes, Docker, Terraform, Kafka

Airflow, AWS, GCP, CI/CD, gRPC, REST APIs

PostgreSQL, Redis, Prometheus, Grafana, Git

WORK EXPERIENCE

Senior Platform Engineer - Arclight Systems

Feb 2021 - Present

- Built the model-serving platform hosting 40+ models on Kubernetes with canary rollout and autoscaling.
- Owns Airflow orchestration for all training and batch-inference jobs.
- Added GPU node pools and inference caching, cutting serving cost 29%.

Backend Engineer - Arclight Systems

Jun 2019 - Jan 2021

- Developed high-throughput ingestion services in Go handling 80k events per second.

PROJECTS

Feature Store Rollout: Delivered a shared feature store cutting duplicate pipeline work across four ML teams.

Inference Gateway: gRPC gateway with request batching, raising GPU utilisation from 34% to 71%.

EDUCATION

B.Tech, Information Technology - Mumbai University, 2019

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA), 2022
- AWS Certified Solutions Architect - Associate, 2020
